Isaac : Hey, **Billy!** Last week I saw a rock that looks like an animal. It's quite interesting! What do you think 😊 ?

Billy : I know what you mean because I have seen this (this = 老鼠石照片)

Isaac: Is that we're going to talk about **The Twelve Zodiac** ?

Billy: Yes! I know there's a story of them...

Once upon a time, all the animals were assembled by God. The God told them he wanted to choose 12 of you to be the representative of each year, so he decided to organize a competition. The animals can be the first 12 cross the river to the temple will be the representative of the year and the year will be named as their names.

All the animals gathered there. [look up and animals show your heads]

Mr Ready? Go!!

Leung: [Animals run→ ox, cat & rat run to the stage, others follow]

Isaac: I know originally there was "Cat".

Billy: Really?

Isaac: Yes! In fact, the cat and the rat were the worst swimmers in the animal kingdom. However, they were both intelligent. They decided that the best and quickest way to cross the river was to jump on the back of the ox. The ox is a kind and good-natured animal, agreed to carry them across. To overcome the keen competition, the rat decided in order to win, it must do something and promptly **pushed the cat into the river.** [push & cat falls into the river]
After the ox had crossed the river, the rat jumped ahead and reached the shore first, and it claimed the first place in the competition. Because of this, the cat has never forgiven the rat, and hates water as well.

Billy : Since the rat has cheated to be the first one and the ox be the second one and later, all the 12 animals had arrived at the temple one after one.

**Rat—Ox—Tiger—Hare—Dragon—Snake—Horse—Sheep
—Monkey—Rooster—Dog and Pig**

[Mr Leung & Miss Wong go on the stage]

Miss Wong: Mr Leung, after listening to the story of the twelve zodiac, I have a personal question to ask you...

In which (animal) year were you born?

Mr Leung: [Pick one]

I was born in the year of ____.

Haha...Of course it's a SECRET!

Actually, you can see the 12 animal stones in Hong Kong. If you are interested, you should join the activities held by Geography Club.

That's the end of the class assembly. Let's give 6D students a big hand and Thank you!
