

English Speaking Day (May 15) – English iDo Game for F.1

Name: _____

Class : _____ ()

WHAT: Geography & History

WHEN: Lunchtime (1:00-1:25) and after school (3:30-4:15)

WHERE: Covered playground

HOW to play the English iDo Game

There are altogether THREE questions.

- ☺ 1: Read aloud 5 words from the Geography and History Vocabulary Bank.
- ☺ 2: If you had the chance, would you like to become an ancient Greek citizen? Why?
- ☺ 3: What problem is shown in this picture? What other problems will it bring?

Each F.1 student is required to answer at least one question (i.e. Question 1). For each question answered, the student can get a stamp on **English iDo Pass**. Students who are able to get THREE stamps by answering all three questions can get a candy.

Do ALL F.1 students have to play this game?

Yes. All F.1 students have to hand in their **English iDo Pass** to class teachers the next morning (**May 16**). Those who fail to hand in their cards on time or whose cards are blank have to stay after school to meet the basic requirements. So, keep the cards well and strive for your best to take part in it. Enjoy the game! ☺

You may also play the **1-minute Challenge Game** in order to get another candy. Simply give a 1-minute talk on topics related to Geography and History, and you can get a **Thumbs-up Token** from the staff or English Ambassadors. If you have two tokens, you can get a candy.

F.1 English iDo Pass

STAMP ONE	STAMP TWO	STAMP THREE

Good Luck on English iDo!!!

Please refer to English iZone for reference on pronunciation.

☺ Question 2: If you had the chance, would you like to become an ancient Greek citizen? Why?

Free answer.

☺ Question 3: What problem is shown in this picture? What other problems will it bring?

1. Overpopulation

2. Shortage of food

- There may not be resources to grow enough food to feed all people. It causes hunger/ famine.

Damage to the environment

- People destroy more land to obtain resources and it damages the environment.

Slower economic development

- A lot of money and resources are spent on feeding the population; it may slow down economic growth.
