TV news reporter:	A peaceful protest is currently taking place at the front gate of the ABC Fisheries Company, some protesters are holding an assembly to protest against their fishing methods. Standing beside me is one of the protesters. Hello Mr. Chan, why are you here today?
Diver:	As the company is undergoing blast fishing and bottom trawling at the open sea, they are destroying the ocean. That's why we are here. We want them to stop doing these.
TV news reporters:	While they protest against ABC Fisheries Company's action, the protesters would also like to make an appeal to the public.
Diver:	Our ocean is being deeply destroyed because of our demand for seafood. As a company, they should choose fish farming instead of catching fish. As an individual, we should buy food products with sustainable seafood labels and encourage fishermen to fish sustainably.
