

## 4C (Life science) What if you could...?

### SCENE 1

What if: Doraemon, I want to go to the future.  
Doraemon: Why?  
What if: Next week is our exam. I want to know my exam results!  
Doraemon: Um... Do you know anything about what will happen when you travel to the future?  
*(Everything stops)*

### SCENE 2 A few minutes later

Chan Kit: Are there any ways for us to travel into the future? *(Thinking...)*  
HENRY: *(jump out with Edward)* Hi! I'm Henry the Later.  
EDWARD: Hello! I'm Edward Future. We come from future.  
HENRY: We haven't got any ways to travel into the future yet.  
EDWARD: But traveling into the future has been the subject of many science fiction (科幻) books and movies for years.  
Chan Kit: Really? Tell me more about that.  
QUEENIE: I am Queenie Soon.  
Sure. Imagine that you could just step into a magic machine. Ann the Next, do you know how to use it?  
ANN: Set a few dials showing the year you want to go to, and the machine would take you there.  
HENRY: You'd be able to see your future life.  
EDWARD: Of course, you need to make sure you have got a round-trip ticket (來回票) !  
Chan Kit: OK. That means there is a way to travel into the future!  
A: Hey! By using freezers (冰格) much colder than your home's fridge (冰箱), scientists have been able to put certain animals into a deep freeze! *(open the refrigerator and see the animals)*  
QUEENIE: Yup, you are right but remember this doesn't work! *(point to the fridge)* It SEEMS that time stands still (停止) for the frozen creature until it is defrosted (解凍) and revived.  
HENRY: The scientists said that the creatures aren't dead when they are frozen and their bodies don't age. (老化)  
ANN: Of course, in THEORY. In fact, time really doesn't stand still in this case.  
A: But now, we have not discovered how to make frozen bodies come back to life, have we?  
HENRY,  
EDWARD,  
QUEENIE,

ANN:

Chan Kit: Oh...What a pity!  
Let me tell you a secret. I have travelled into the future in the dream!  
But.....  
*(A holds the cloud and walks across the stage to take the refrigerator  
backstage.)*

### SCENE 3

Mr Chan: Zero mark again?!!!

Chan Kit: Sorry...Sorry Mr Chan....

LYY: What?! You failed again?! How come?

HENRY: If you want to, you should study hard and become a scientist. *(give the book  
to Chan Kit)*

QUEENIE: And invent a time machine for us to have a wonderful journey!

EDWARD: We must go...
